MESSAGE FROM THE PRIME MINISTER

Honourable John Briceno

Prime Minister of Belize
Minister of Finance,
Economic Development and
Investments

Belize, like most countries in the world, continues to be affected by COVID 19 and the ravages of the global economy. In the interest of our people and community, we must continue to actively explore strategic avenues that will enhance economic recovery with deliberate intent. For the first time in Belize, we have launched the Belize Investment Summit, under the theme “Belize: Open for Business” which falls in line with our Plan Belize mandate to promote robust economic initiatives, diversity, and inclusion of all.

Our strategic location, bountiful natural terrestrial, mineral, and marine resources, a young vibrant population, and an investor-friendly government enable an abundance of opportunities that make us uniquely attractive as an investment destination. The Government of Belize prioritizes economic development and is making the necessary legal, policy, and procedural changes, to create an environment that is conducive to doing business in Belize.

Belize is looking forward to accelerating investment growth, aligned with the sustainable development goals; improving our fiscal position, reducing our debt burden, and improving economic prosperity.

Our country boasts exceptional and untapped growth potential and has a wealth of opportunities in areas, such as, Agriculture, Tourism, Blue Economy, Business Process Outsourcing, Manufacturing and Renewable Energy which will be the highlight of our first Investment Summit.

I am convinced, as Prime Minister, that it is the opportune time to invest in Belize; whether foreign or local, to establish strategic partnerships and find investment opportunities. Join us on November 10th and 11th and seize upon the many investment opportunities we have to offer in this jewel you can call home.

Belize Investment Summit 2021

BACKGROUND

The Belize Investment Summit 2021 is a first-of-its-kind event focusing on attracting and promoting investment for economic development in Belize. This high-profile occasion is being led by the Office of the Prime Minister and the Ministry of Finance, Investment, and Economic Development under the theme: "Belize is Open for Business". It is a call to both local and international investors for identifying opportunities and showcasing Belize's readiness to support global investment through vastly improved service delivery.

The Summit will feature an address by the Prime Minister highlighting the government's vision on enhanced and strategic investments, presentations from other high-profile international experts, public officials such as Chief Executive Officers, policymakers, and enterprise movers and shakers who together shape the investment climate in Belize. This will be complemented by industry-specific presentations, a Doing Business in Belize Expo, and the opportunity for robust connecting across investment stakeholders through a Match-making session.

The Summit will be delivered in a hybrid virtual and face-to-face setting allowing participants the advantage of in-person networking among investors, government officials, and other key economic agents.

Belize is Open for Business and we are ready to be your investment destination!!

OBJECTIVES

In a Post-Covid environment the Government of Belize (GOB) makes an extremely urgent call for investment to jump start and accelerate the economy. Increased investment will allow Belize to reposition itself so that it emerges from the COVID pandemic/crisis with an accelerated recovery.

Both local and foreign investments are essential to guarantee positive economic growth along with increased employment ultimately improving the quality of life of our people. To accomplish this goal, a two-day investment Summit will be held as a means to promote and generate investment for Belize that can lead to FDI and GDP growth.

GOB Key Objectives

1. Differentiate Belize as an Investment Haven to attract FDI.
2. Improve and incentivize more local investments.
3. Facilitate the transfer of skills through FDI.
4. Deepen the sophistication of our financial system.
5. Increase the inflow of foreign exchange.
6. Facilitate Industrialization

Summit Objectives

1. Inform participants about the current policies and regulations regarding investing in Belize
2. Identify and discuss emerging investment trends, opportunities and risks within Belize.
3. Foster diversity by facilitating women-led discussions and providing a networking platform for potential investment partnerships.
4. Provide an opportunity for one on one government and business dialogue on the investment climate and ease of doing business.
5. Provide a platform for local businesses and investors to engage, match and partner with global investors.

OVERVIEW

Who Should Attend

- Investors of all sizes, at all stages that are looking to establish or expand operations in the Belize.
- Companies looking for opportunities for new investments, joint venture partnerships, sale of venture, or concessionary leases.
- Investment, trade, chamber of commerce and other organizations and service providers that facilitate investments and trade with Belize and other countries.

WHY BIS 2021

Belize offers a competitive advantage for foreign direct investment attraction assigned to its strategic location in relation to important markets with preferential treatments, its wide availability of skilled and bilingual (English-Spanish) labour force and an attractive Fiscal Incentive Programme. Moreover, Belize has a strong and supportive policy framework that supports start-ups, micro-small and medium enterprises and multinational companies. This framework will be further strengthened through Belize's National Investment Policy and Strategy.

The Summit offers the opportunity to learn about investment opportunities, to promote the advantages of investing in Belize and in specific sectors, to connect with investment stakeholders, to network with them and to push your investments forward.

Reasons to Attend

- Meet face-to-face with investment promotional agencies and government officials to learn more about resources and incentives available to support business investment in Belize.
- Hold bilateral meetings with investors, local companies and government officials from across the country and region especially those that have trade agreements with Belize.
- Acquire insight into major challenges for doing business in Belize and how the Government of Belize is addressing those challenges.
- Create strategic partnerships and expand your network through local and global connections via a matchmaking session.
- Learn about export programs , how to gain entry into new markets and how to generate new sales leads and increase your brand awareness.
- Hear from a variety of high-level government and corporate speakers via moderated panels on the latest trade and investments opportunities and updates.
- Pitch your business face to face with investors looking for connections within your sector.
- Enjoy a unique business atmosphere

AGENDA HIGHLIGHTS

The Belize Investment Summit will host two days of strategic discussions on a range of investment promotion initiatives, policy reforms, incentives for investors, and matchmaking opportunities, closing with an Expo to help investors deepen their understanding of the processes for doing business in Belize.
